Dear Jan

Re: Reference request

Thank you very much for the recent work you undertook for us. You requested a reference for future potential clients, which I am pleased to provide.

We engage in the cleaning and management of buildings and both of these sectors are high employers of foreign nationals. We engaged your consultancy to make sure we were taking all steps needed to comply with current legislation around this issue. Your input has given us a detailed plan of action and a documented process to follow. This was a large area of concern which you have now removed.

Based on your prompt service and clear advice on this occasion, we would have no hesitation in engaging your services again and are happy to recommend you to other organisations.

Yours Sincerely

Lee Burkitt
Managing Director
